

ADITYA GAUTAM

DELHI, NCR | ADITYA23043@IIITD.AC.IN | [LINKEDIN](#) | [GITHUB](#)

EDUCATION

INDRAPRASTHA INSTITUTE OF INFORMATION TECHNOLOGY, DELHI (IIITD)

(NEW DELHI, INDIA)

Bachelor of Technology in Electronics and VLSI Engineering (BTech, EVE)

2023-2027

Marks Obtained : 7.9 CGPA (Until Semester 04)

AMITY INTERNATIONAL SCHOOL, MAYUR VIHAR (AISMV)

(NEW DELHI, INDIA)

CBSE, Class XIIth (PCM)

2023

Marks Obtained - 80%

AMITY INTERNATIONAL SCHOOL, NOIDA (AISN)

(NOIDA, UTTAR PRADESH)

CBSE, Class Xth

2021

Marks Obtained : 93%

PROJECTS

SPLIT ERGONOMIC KEYBOARD

https://github.com/aditya23043/split_keyboard

Designed a 20-key split ergonomic keyboard, minimizing finger travel for enhanced comfort and efficiency.

ONE HANDED CONTROLLER

https://github.com/aditya23043/Tekken_Controller

Engineered a single-handed gaming controller to enable individuals with disabilities to play PC games, featuring optimized button layout and joystick control.

INFO SCRAPER

<https://github.com/aditya23043/InfoScraper>

Engineered a web automation tool, navigating challenges of captcha and rate limiting by strategically selecting and switching between Python, C, and JavaScript to achieve robust and reliable data extraction.

ASSEMBLER & SIMULATOR

<https://github.com/aditya23043/Assembler-and-Simulator>

Assembler is a type of computer program that translates programs written in assembly language into machine code that can be executed by a computer processor. Simulator performs a simulation upon a binary code which allows for the testing of the functionality of the binary code.

OCR: Images to Text

<https://github.com/aditya23043/OCR/>

Converts text from multiple images to text using python modules like PyAutoGui, Numpy, PyTesseract, Pillow, etc.

PASSWORD MANAGER

<https://github.com/aditya23043/PassManager>

Simple Tkinter based password manager hosted on a local MySQL database. Does not require internet connectivity for loading or storing passwords, enhancing security and privacy, and provides complete control over the storage and management of passwords.

NCURSES THEME & FONT SWITCHER

<https://github.com/aditya23043/style>

Engineered a cross-application styling tool in C, providing an Ncurses menu to manage themes and fonts for various Linux development utilities, streamlining system-wide aesthetic consistency.

FETCH THE BERRY

<https://github.com/aditya23043/FetchTheBerry>

A competitive pixel game based on the classic snake xenzia game which utilizes the ssd1306 oled display alongside analog input from a joystick breakout board. Furthermore, it provides an option to switch between dark mode and light mode for the user's convenience.

TECHNICAL SKILLS

PROFICIENT : C (*Xlib*), C++ (*OpenGL*, *Pico SDK*), JAVA (*LibGDX*), ASM, VERILOG (*Vivado*), BASH, MYSQL, PYTHON (*SymPy*, *OpenCV*, *Pillow*, *NumPy*, *Matplotlib*, *PyAutoGui*, *SMTPLib*, *CSV*, *Pickle*, *re*, *PyMySQL*, *Tkinter*, *KivyMD*), DART (*Flutter*), GLSL, MICROPYTHON, CIRCUITPYTHON, KICAD, OPENSCAD, LINUX (*Arch*), VCS (*Git*).

INTERMEDIATE : JAVASCRIPT (*Puppeteer*), LUA (*Neovim*), EMACS-LISP (*Emacs*), RUST, GO, RayLib, SDL2.

SOFT SKILLS : Organisation, Creativity, Time Management, Problem Solving, Communication, Teamwork, Leadership.

RELEVANT COURSEWORK

Introduction to Programming, Introduction To Human Computer Interaction, Linear Algebra, Communication Skills, Digital Circuits, Basic Electronics, Probability & Statistics, Data Structures & Algorithms, Computer Organization, Introduction to Sociology and Anthropology, Embedded Logic Design, Circuit Theory & Devices, Signals & Systems, Multivariate Calculus, Advanced Programming, Algorithm Design & Analysis, Electronic System Design, Physics of Semiconductor Devices, Fields & Waves, Integrated Electronics

EXTRA CURRICULAR ACTIVITIES

- Young Maestro (AISN'15) for musical proficiency in flute, scottish drums and electronic music production.
- Credited for various post-production projects (Audio and Video editing) - collectively having over 1k views on meta-based applications.
- Keen electronics enthusiast, with various micro-projects - proximity sensor for automobile, buzzer and visual guidance for senior citizens & orthogonal split mechanical keyboard for improved hand ergonomics.
